## ABOUT US

MOHOM is a company focusing on cement household products, and the factory has 20 years of experience. We are a highly experimental, exploratory, borderless, cross-border and prolific brand. We are committed to the innovative research and development and design of cement products. We are committed to bringing more possibilities to cement through a series of design-based process innovations. Let cement return to its essence, restore its unique texture, and make it into products that meet our daily needs.

MOHOM integrates R&D, design, production, sales and promotion. At present, the products cover bathroom products, household products, desktop stoves, etc. We pursue the positioning and inspection of our products with international standards. Each product is independently designed and customized with high quality. The products and materials are certified by professional quality testing agencies such as CE, CUPc, and ROHS2.0.
